Riva Spectrum Gas Fire

Bold, contemporary design

The Riva Spectrum combines a striking frame design with the superb heating efficiency of the glass-fronted Riva range.

The fire is available in two sizes. The Riva 53 is portrait format with driftwood log effect fire, the Riva 67 is landscape format with a traditional log effect fire. Both models are available in balanced flue versions for homes with no chimney and remotes controls are options across the model choice.

Spectrum frame: Black/polished stainless steel inserts.

All gas Riva 53 and 67 models come with manual operation and the option to upgrade to a Standard remote control (allowing you to adjust both the flame height and heat output) or the Programmable remote control (with additional thermostatic and timer functions).
