Riva2 670 Evoke Steel

Attractive electric fires

The Evoke Steel is a stunning, two-part design that blends expertly into both traditional and more modern interiors. The front face of this frame comes in a stylish Graphite finish with the option for customisation in one of four exciting additional colour choices.

The attractive bevelled rear is left in Graphite to perfectly complement the standard finish on the front or form a contrasting border to any of the bold colour choices. With variable flame effect and heating settings, and the option to enjoy the flames without any heat at all, the Riva2 Evoke Steel will be as impacting in its functionality as it is in its designer aesthetics.

Riva2 670 Evoke Steel – Key Facts
