Studio Electric Glass

Sleek, chic and contemporary, the Studio Electric Glass offers a distinctive focal point that will complement any stylish interior. Available in four sizes, there's a Studio Electric Glass to offer instant striking impact, whatever your room size.

Easy to fit, this designer fire can simply be hung on the wall and its shallow depth means it will only protrude mimimally into your room.

A stunning flame-effect with 4 levels of brightness is available at the touch of a button on your remote control. You can alter the heat output to suit your requirements, or you can enjoy the stunning LED flame-effects with no heat at all!

Colour finish: Black Glass only.
