
Cameo Carousel Tile Set

Faithfully reproduced from Victorian originals

Stovax fireplace tiles are ideal for use in both antique and reproduction cast iron tiled fireplaces.

One set of Cameo Carousel tiles shows a nymph with a harp, the facing set features a nymph with a scarf, both with classical styling.

Set against a rich cream glaze, the decoration uses up to 18 separate colours in each design to make the tiles indistinguishable from hand-coloured originals.

The tile edges are virtually square so that the tiles can be laid hard up against each other without the need for grout.

Individual tiles measure 6” x 6” (152 x 152mm).

5 tile set measures 30” x 6” (760mm x 152mm).
