Plant & Urn

Faithfully reproduced from Victorian originals

Stovax fireplace tiles are ideal for use in both antique and reproduction cast iron tiled fireplaces.

Set against a rich cream glaze, the decoration uses up to 18 separate colours in each design to make the tiles indistinguishable from hand-coloured originals.

The tile edges are virtually square so that the tiles can be laid hard up against each other without the need for grout.

Individual tiles measure 6″ x 6″ (152 x 152mm).

5 tile set measures 30″ x 6″ (760mm x 152mm).
