Huntingdon 30 Electric Stove

Fine castings and a beautiful tracery door

An electric stove version of the popular Huntingdon 30.

The fine castings and beautiful tracery door of the stove are brought alive with Gazco's VeriFlame™ technology which provides you with two heat settings that can both be thermostatically controlled; three flame brightness levels, plus the additional option for a blue flame effect on the high setting.

Your choice of fire is then set against the highly realistic fuel bed and individually hand painted 'logs', mirroring the look of a real wood burning stove.

Operation is simple with this Huntingdon 30 electric stove as the remote control * not only allows selection of the flame and glow but also fire/heat combinations.

Colour choices: Matt Black, Matt Ivory, Laurel Green, Midnight Blue & Ivory.
