Riva F76 Freestanding Stove

Cosy winters in front of a real log fire await you

Wider than the F66 multi fuel stove, the F76 Freestanding stove is a wood burning only appliance.

It creates an outstanding landscape centrepiece in larger rooms. Particularly as the airwash system helps keep the large window clear, to enjoy the swirling flames produced by the cleanburn system.

The cleanburn technology and 'Opti-Burn' setting offers you powerful, yet efficient, heating capacity. With up to 9.0kW available, the prospect of cosy winters in front of a real log fire awaits you.

The F76 Freestanding can be hearth mounted or, for an alternative style, placed on either a 100cm, 120cm, 140cm or 180cm Riva Bench.

Available in two colours: Storm Metallic or Midnight Black Metallic.
