# Riva 67 Designio Electric Fire

### Plug in and switch on for that real fire look

Slot the Electric Riva Designio into a pre-constructed opening, plug in and switch on for that 'real fire' look. The fire can also wall mounted using a wall mounting fixing kit.

The electric log-effect fire provides flickering flames and a warming glow at the touch of a button on the remote control.

You are given instant heat as the heater can be operated with 1 or 2kW of output. Or you can enjoy the flames without any heat.

Colour choices: Graphite or Iridium.

Fuel bed effect: Log effect only.

### Riva 67 Designio - Key Facts
