Built In & Wall Fires

Original period styling with the latest heating technology

In the 1920s and 1930s the Arts movement combined art and technology to bring aesthetic appeal to any object in daily use. This evocative style is still influencing contemporary design.

Adhering to the movement's original concept, Gazco's Arts gas fire, echoes the style of the era whilst incorporating the latest inset gas fire innovations. It is available in the popular 16" width as well as being offered with a wide choice of front and frame finishes.

Available with your choice of three different control systems: Manual Control, Slide Control or a Remote Control.

Fuel effects: White stones, Coals or Glass Bead fuel effects (dependant on the type of model).

Colour choices for the Arts front are Matt Black, Highlight Polished, Polished Chrome-effect and Polished Brasseffect.
