Gas Riva Vision Medium

Greater heat output

Bridging the gap between the existing Gazco Riva™ Vision Midi and Riva™ Vision Large models, the Riva™ Vision Medium gas stove still maintains the striking look of the contemporary Riva™ Vision range.

This contemporary gas stove incorporates a highly-realistic log effect fire with a glowing ember feature and an unparalleled flame picture. The flames are enhanced by the stainless steel firebox lining panels, creating extra illumination in the firebox and with a mirror-like finish that echoes the Vision's reflective exterior.

Select from one of our contemporary Riva™ stove benches to further enhance your interior design possibilities.

The Riva™ Vision Medium model is also available in our Stovax wood burning and multi-fuel gas stove range and for those wanting a smaller version of this model, the Riva™ Vision range also includes our compact Riva™ Vision Small gas stove – perfect for those cosy inglenooks!
