Riva Studio Edge Wood burning Fire

Beautiful focal point

The Riva Studio Edge is for those who require minimalist modern perfection. This contemporary fire has a seamless no-frame design, allowing your home's interior to frame and enhance the roaring flames. Combine this with optional fan-assisted convection system and you can boost the flow of heat into your room whilst providing a beautiful focal point.

The Riva Studio 500 has been specifically designed to fit into a standard 22" British fireplace opening without any additional building work.
