*NOTE: A suffix of HT shows a product with packaging that conforms to ISPM15 requirements.*

**Installing with a GAZCO appliance:**

Some of these benches can also be used in conjunction with several GAZCO appliances. These products come with their own dedicated instructions for installation with a bench which can be found in the relevant User & Installation manual.

Installation Instructions - All Models

Packaging List

- Instructions
- 3 x Drilling Templates *
- 4 x M6 x 90 Coach bolts
- 4 x M6 Washers
- 4 x M6 Nuts
- 2 x No.8 Hex Coach bolt
- 2 x Rawl plugs
- 5 x Felt pads*

Tools Required

- 10mm A/F Spanner
- 13mm A/F Spanner
- Hammer
- Center Punch
- Power Drill with:
  - Ø8mm Masonry drill bit
  - Ø8mm Steel drill bit
  - Pozidrive attachment

1. Installation - All Models

Take care not to scratch the hearth or bench when fixing an appliance to it. Where possible use soft protection underneath. When repositioning is required, lift the appliance. Do not slide to avoid marking.

1.1 Position bench on your hearth and mark out the 2 key slots on the floor.

1.2 Remove bench and drill the two marked positions with Ø8mm hole to 50mm deep.

1.3 Tap in No.8 Rawl plugs.

1.4 Screw in No.8 coach bolt leaving 5mm gap from the surface of the floor.

Depending on the model appliance to be placed on the bench continue at:

Section 2. Riva Freestanding (RVF40C, RVF66 & RVF76)

Section 3. Riva Vision (RVN-SMW/M, RVN-MIDW/M, RVN-MEDW/M) View (VW3-MF, VW5-W/MF, VW8-W/MF) Yeoman CL (YM-CL3MF, YM-CL5W/MF, YM-CL8W/MF)

Section 4. Riva Studio Freestanding (RVFS-1, RVFS-2)

* Not required with Riva Visions, Freestanding Studios, View or Yeoman CL
2. Installation
- Riva Freestanding Cassettes

2.1 Slide the bench over the coach bolts in the hearth and tighten. Position the drilling template where the appliance will be secured.

2.2 Mark drilling points with a centre punch.

2.3 Drill Ø8mm holes. Straight through both sides.

2.4 Remove back cover plate from the appliance.

2.5 Lift off the appliance cover plate.

2.6 Firstly remove all internal parts from the stove and remove the door. Tip the stove onto its front on a soft surface that will not damage the paintwork. Apply felt pads to each corner of the base.
Installation Instructions - Riva Freestanding Cassettes

2.7 Position the appliance on the bench

2.8 Remove the ash pan and insert two coach bolts in the front holes. Fix with the nuts and washers provided.

2.9 Repeat step 2 - 8 with the rear holes.

2.10 Replace the top cover plate

2.11 Re-attach the back cover plate, internal parts and door.

2.12 Finish installation

IMPORTANT
Check that this arrangement is secure. Open the door of the appliance and check that it does not tip forward at all.
3. Installation
- Riva Vision, View & Yeoman CL

NOTE: A Drilling Template is not required for this installation. Use the appliance to mark position, see 3.2.

3.1 Slide the bench over the coach bolts in the hearth and tighten.

3.2 Position the appliance on the bench where required, taking care not to damage the bench surface. Mark the position of the two fixing holes in hearth mounts.

3.3 Vision Only: If a Glass Plinth is being used mark the two holes on the plinth bracket.

3.4 Drill the two Ø 8mm holes straight through both sides.

3.5 Insert the two coach bolts provided. Fix with the nuts and washers provided.

3.6 Finish installation.

IMPORTANT
Check that this arrangement is secure. Open the door of the appliance and check that it does not tip forward at all.
2. Installation
- Studio Freestanding appliances

NOTE: A Drilling Template is not required for this installation. Use the outer case of the appliance to mark position, see 4.3.

4.1 Slide the bench over the coach bolts in the hearth and tighten.

4.2 Remove the inner box from the outer casting:
Open the door.

Follow Freestanding instruction manual (PM452), Installation Instructions, Section 2-6 for removal of the door and internal components (log guard, bricks, baffles etc).

Separate the inner box from the outer box as detailed in Installation Instructions, Section 1.

4.3 Position the outer box on the bench taking care not to damage the bench surface. Mark the position of the four fixing holes in the hearth base. If positioning the appliance against the edge of the bench leave a 50mm clearance (See Diagram 24).

4.4 Drill the four Ø 8mm holes straight through both sides.

4.5 Insert the four coach bolts provided. Fix with the nuts and washers provided.

4.6 Re-insert the inner box into the outer casing and refit the internal components.

4.7 Finish installation.

IMPORTANT
Check that this arrangement is secure. Open the door of the appliance and check that it does not tip forward at all.
5. Cleaning & Maintenance

Stovax benches are a powder coated product which means that the covering is stronger than normal paint but unfortunately cannot be repaired if scratched.

Clean the bench with a damp, lint free cloth.
