Riva Nemos Gas Stove

Developed for highly efficient heating

The Riva Nemos has an immediate allure with clean lines and soft curves.

Beauty, however, is more than skin deep – behind the stove's glass window is a state-of-the-art gas fire with driftwood logs and a realistic flame pattern.

The stove provides high efficiency heating. If you opt for the Programmable remote control you can even wake up or come home to a real fire atmosphere and a temperature to suit your needs.
