Riva 55 Multi-fuel Fire

Enhance your heating options

With greater heat output and a large window to view the flames, the Riva™ 55 cassette fire can be installed into a standard British fireplace opening which is 915mm h x 915mm w x 460mm d (36"h x 36"w x 18"d). It can also be installed as a 'built in to the wall' fire.

The Riva™ 55 offers you two accessories to enhance your heating options. The first is fan-assisted convection for quicker warming of the room when the Riva™ is first lit. The second is a ducting system that can distribute warm air into the same room or to other living spaces. Installing the fan and ducting system together will maximise the benefits from this impressive 8kW cassette fire.
