# Riva 67 View Electric Fire

## Slimline electric fire for built-in or wall mounting

Slot the Electric Riva View into a pre-constructed opening, plug in and switch on for that 'real fire' look.

The fire can also be wall mounted using a wall mounting fixing kit. Mounted on the wall the fire is only 142mm deep. Recessed into the wall as part of a built-in installalation it only extends 35mm into the room.

The electric log-effect fire provides flickering flames and a warming glow at the touch of a button on the remote control.

You are given instant heat as the heater can be operated with 1 or 2kW of output. Or you can enjoy the flames without any heat.

Colour choices: Graphite or Iridium.

Fuel bed effect: Log effect only.

## Riva 67 View – Key Facts

| Fire choices | Heating efficiency | Heat output (kW) | Chimney |
|---|---|---|---|
| Electric Riva 67 | 99% | 2.00kW | No Chimney Required |
