Stockton 7 Inset Convector

Around 4 times more efficient than an open fire

The Stockton 7 Inset Convector offers you an inset convector fireplace with the heating advantages of a freestanding Stockton stove.

With Cleanburn and convection systems, the Stockton 7 Inset Convector is around 4 times more efficient than an open fire. It also gives you greater control of combustion, more heat for your money and lower fuel costs.

There is also an integral boiler version which produces up to 24,000BTU's of hot water.

Available in four colours: Matt Black, Metallic Blue, Metallic Brown, Metallic Green

FREE SMOKE CONTROL KIT
For all compatible Stockton stoves that are to be installed within Smoke Controlled Areas.
