

5 Year Gas Warranty

Terms & Conditions

To receive your Extended Warranty your Gazco Gas Stove or Fireplace must have been purchased from an authorised stockist within our Expert Retailer Network and your Warranty registered with Gazco within one month of the later of the purchase date or installation date. The commencement date for the warranty period is the date of purchase.

During the registration process, the details of the Expert Retailer from whom you purchased your product will be required for your Extended Warranty to be activated. Any product purchased outside of our Expert Retailer Network, or not registered within the stated time, will carry a standard 12-month Warranty, or minimum statutory warranty for your country. The Extended Warranty for your Gazco Gas Stove or Fireplace extends the standard 12-month Warranty by a further 4 years to a total Warranty period of 5 years.

It is a condition of the Extended Warranty that the installation complies with relevant Building Regulations and the rules in force, and is carried out by a suitably trained and qualified individual (GasSafe registered in the United Kingdom or equivalent in other countries) with a certificate of installation and the appropriate commissioning report completed and retained by the end-user. These can be found within your Installation and User Manual.

It is also a condition of the Extended Warranty that your Gazco Stove or Fireplace is regularly serviced (every 12 months) by a suitably trained and qualified individual (GasSafe registered in the United Kingdom or equivalent in other countries). Records and receipts of annual services will be required in the event of a Warranty claim during the period of the Extended Warranty.

This Warranty can be transferred in the event that the Customer sells the appliance within the Warranty period. The Customer must inform Gazco in writing of the sale within 14 days of the resale. Failure to notify Gazco within 14 days will result in the Warranty becoming invalid. Please pass on the dated sales receipt as a proof of purchase to the new owner.

During your Extended Warranty period, only genuine Gazco spare parts must be used in the servicing and maintenance of your Stove or Fireplace, these spare parts can be ordered via www.gazcospares.com, or from an Expert Retailer directly.

Consumable items such as glass, grate parts, baffles, thermocouples, oxy-pilots, ceramic fuel effects, internal linings, batteries and rope seals which are either subject to normal wear and tear or parts that require replacement in connection with normal annual maintenance are not covered, either by the original or the Extended Warranty.

Oxy-pilots will require replacement every two years for continuation of Warranty into the third and fifth year, in addition to the product also being serviced annually by a Gas Safe registered engineer. Damage caused by failure to replace worn or damaged consumable parts will not be covered by this warranty.

Should you experience problems with your Stove or Fireplace, any claim must be submitted first to the Expert Retailer from whom the product was purchased. Your Expert Retailer will either be able to offer immediate assistance or having visited you make contact with Gazco on your behalf. For a Service call to be arranged Gazco will require proof of registration, commissioning documents and service history if applicable (Service history required for all product over 12-months old). Any Warranty claim without the required information will be referred back to your Expert Retailer from whom you purchased it.

To progress any Warranty claims for damaged appliance/parts, paint or any visual defects, photographic evidence must be supplied. Failure to provide photographic evidence may result in the claim being delayed or refused.

If the product fault or defect is notified after 14 days from the date on which the fault or defect became apparent, Gazco cannot accept any liability for events or issues which arise after the 14-day period or which are caused or increased by the lack of notification which therefore prevented action being taken to restrict or eliminate any consequences arising from the fault or defect at an earlier date.
